Our Holistic Practice Philosophy

Patient Name: _____

Age: _____ Phone: _____

Referring Doctor: _____

Date: _____

The patient is being referred for:

- Evaluate Malocclusion
 - A. Adult
 - B. Child
- Evaluate TMJ
- Evaluate Orthognathic Skeletal
- Invisalign

Comments: _____

Our practice philosophy is directed towards obtaining the highest quality, longest lasting results possible. This includes ideal fit and function of all teeth and facial bones (not just straight front teeth). This approach leads to life-long stable results.

The removal of primary and permanent teeth is something we strive to avoid. Utilizing techniques to encourage natural skeletal and jaw development - instead of extracting teeth - we are able to accomdate all the teeth in the majority of cases. Although early treatment is advised for severely crowded cases, we are careful not to start prematurely on all children. This optimal timimng keeps a child's treatment to a minimum.

It is with this conservative approach that we are able to achieve our practice goals and bring you and your family the assurance of quality orthodontics resulting in healthy and stable functioning teeth to last a lifetime.

Orthodontic
SPECIALISTS 

Ron R. Iacobelli D.D.S., M.S.
& Associates

What makes our Practice Unique?

With over 35 years of experience and a conservative holistic non-extraction approach that gently promotes natural growth, Orthodontic Specialists achieves rapid quality results for the longest-lasting, most stable smiles available today.

Dr. Iacobelli, founder and director of Orthodontic Specialists, graduated first in his class from the University of Michigan Dental School. He went on to complete his Masters in Orthodontics from the University of Detroit.

Over the past 35 years, Dr. Iacobelli has researched and developed uniquely efficient and precise techniques for achieving rapid quality results, promoting the body's natural growth. He has become well known for developing these concepts and has been asked to teach them to many practitioners.

It is these conservative non-extraction quality gentle techniques which have become popular with over 25,000 patients. These approaches result in aesthetically pleasing smiles, stable results, and relatively short treatment times. Both patients and referring doctors have been so pleased that they have allowed our practice to become one of the largest quality practices in Michigan.

Dr. Iacobelli's role is to make sure all patients are treated according to these high standards. He spends most of his time diagnosing and seeing patients, as well as teaching staff and doctors to treat according to the quality standards he has developed.

THE FINEST ORTHODONTIC TREATMENT AVAILABLE

Doctor Controlled Office Visits

Our doctors check every patient at each treatment visit. Only the doctor applies braces and does the adjustments as required by law.

Optimal Timing & Fast Treatment

Treatment is only started when your child is truly ready, preventing needless drawn-out overtreatment. If not ready, your child will be placed on a recall program until optimal growth for treatment occurs. Our fast treatment lasts 6-18 months with most cases lasting less than a year.

Advanced Technology

Digital x-rays and 3D scanning as well as online account access, email and text reminders are some of the technologies featured in our practice. We are also **Preferred Invisalign Providers** and can produce immediate outcome simulations at your first visit.

Patient Education

Interactive video and computer imaging, as well as our self-published educational materials improve your understanding of proposed treatment.

Non-extraction Commitment

We strive to preserve primary and permanent teeth in order to achieve a fuller, more natural smile.

No Headgear or Bulky Appliances

We use the latest high tech alloys and resilient wires thereby increasing patient comfort and streamlining total treatment time with fewer visits.

Established Quality Practice

Treating over 25,000 cases in 35 years and constantly growing by way of referrals from previous patients and local dentists.

Practice Hours

We have evening and Saturday appointments to accommodate everyone's busy schedules. Office hours are by appointment only.

Reasonable Fees

Affordable fees are based on each individual case. Flexible "zero down" and "zero interest" arrangements can be made. We participate with all insurance plans. We will do the best to obtain the maximum benefit for your care.

"Match & Beat" Fee Policy

We promise to match any other qualified specialist's fee out there. Bring in their quote for the same treatment and we will beat it by 5%.
